Boat

RIVA AQUARAMA, the world famous speedboat, was designed by Carlos Riva in the 1960s. Riva is noted as one of the most legendary and famous speedboats out there. It is FULLY ASSEMBLED and ready to be proudly displayed as a piece of history.

This is a truly beautiful model of Riva Aquarama with unpainted natural wood finish. You can find exquisite details such as leather seats, stainless steel fittings and gauges. The cockpit has two individual seats in the front and one passenger seat in the back. The Riva flag is flying above the stern. Come in 2 sizes: medium and large.

RMS TITANIC

In May 1911, she was launched, which was a heavily publicized spectacle. On 10 April 1912, the Titanic commenced her maiden voyage from Southampton, England to New York, with 2227 passengers and crew aboard. Unfortunately, at 11:40 p.m. on the 14th April 1912, the greatest maritime disaster in history began. During that night of heroism, terror and tragedy, 705 lives were saved, 1502 lives were lost, and many legends were born.

You can find hundreds of intricate details on this Titanic. All lifeboats are handcrafted from wood. All riggings are accurately placed. The intricate pieces such as: the crane, anchors, stanchions, windows, ladders, steam pipes, and skylight really make the model a master piece.

Come in 4 different sizes: Small, medium, large and XL.

- * Length: 14 feet 9 inches
- * Bow Height: 10 inches
- * Mid Height: 9.5 inches
- * Cockpit: 31.5 x 17.5 inches
- * Weight: 45 lbs
- * Capacity: 500 lbs

Another division of OMH, Wooden Boat USA™, has been designing and building kayaks, canoes and other watercraft of the highest quality for many years.

Our builders use a method of handmade construction while integrating the highest quality materials currently available. Thanks to years of research and innovation, our wooden watercraft are not only beautiful but also perform very well. They are built from strips of top grade Canadian red cedar and then encapsulated in fiberglass with epoxy resin. A final UV resistant clear coating is added to provide extra protection. Using these finest quality materials and construction techniques, Wooden Boat USA™ build very attractive, strong and durable watercraft.

K002-Skeena Bear Canoe 18

- * Length: 18 feet
- * Beam: 35.5 inches
- * Mid Height: 15 inches
- * Bow Height: 27 inches
- * Rocker: Slightly rocked
- * Weight: 70 lbs
- * Capacity: 700 lbs

K005-Skeena Rapid Canoe 16

- * Length: 15 feet 8 inches
- * Beam: 31.5 inches
- * Mid Height: 12 inches
- * Bow/Stern Height: 24 inches
- * Weight: 50 lbs
- * Rocker: Slightly rocked
- * Capacity: 550 lbs

Each canoe/kayak comes with a set of paddle and a fabric cover. Please contact one of our dealers or distributors for availability and pricing.

Tall Ship

OMH Certificate of Authenticity HMS Victory

This certifies that the accompanying ship model is meticulously handcrafted, using high-grade wood and plank-on-frame construction that replicates historic shipbuilding methods.

H.M.S. Victory was the ultimate British fighting vessel: 227 feet long with 104 guns and 850 men when at full capacity. It was launched in 1765 and is most famous as Adm. Horatio Nelson's flagship at the Battle of Trafalgar in 1805. Nelson was shot and killed during the battle.

H.M.S. Victory is the oldest naval ship still in commission. It has been restored and rests in drydocks at Portsmouth, England. The ship in Portsmouth is the sixth ship with the name Victory in the Royal Navy. There has been great interest in the fifth Victory ship, which was built 15 years earlier and whose wreckage was found recently by Odyssey Marine Exploration.

Tall ship is our specialty. They were built plank on frame or sometimes double plank on frame. It takes more than two hundred hours to build a museum quality model such as HMS Victory or USS Constitution.

Endeavour Sailboat

The Endeavour was the most impressive British sailboat to ever race in the America's Cup World Series. Built for speed as well as beauty, the Endeavour was created in 1934 by Thomas Sopwith, the undisputed leader of the British aircraft industry. It's a magnificent model to be displayed in any home or office.
